Continuation of 3. NOTE: The newly added limitation in claim 16 "at least two" would require a further search and/or consideration. Claim 16 claims "a plurality of second data processing units". This limitaiton does not require "at least two second data processing units". Merriam-webster's online dictionary defines "plurality" as "a number greater than another". Since one is greater than zero, then when you have one second data pricessing unit you have a plurality of second data processing units. Therefore the proposed limitation changes the scope of the claims and would require a further search and/or consideration.
